

Bayern Kapital GmbH, based in Landshut, was founded on the initiative of the Bavarian government in 1995. It is a wholly-owned subsidiary of the Bavarian LfA Förderbank. As the venture /growth capital organisation of the Land of Bavaria, Bayern Kapital provides equity capital financing for the founders and their innovative technology companies in Bavaria.

Presently Bayern Kapital manages thirteen investment funds with a total volume of around €700m. So far, it has invested almost €350m in around 300 innovative companies in the fields of technology in various sectors including life science, software & IT, medical technology, materials and new materials, nanotechnology and environmental technology.

In this way, more than 8000 long-term jobs in sustainable companies have been created in Bavaria.
